

Morayfield station accessibility upgrade

PROJECT UPDATE – SEPTEMBER 2019

Queensland Rail's Morayfield station accessibility upgrade is part of the program to upgrade stations across the South East Queensland network, making them accessible for all customers.

Project progress

Activities undertaken recently at Morayfield have included:

- platform raising and paving works
- lift shaft installation
- station building – internal walls, fittings, tiling and ticket window
- shelter extension, roofing, lighting and services.

Upcoming works

In the coming weeks, customers and the community can expect to see the following activities:

- ongoing lift installation
- completion of station building
- completion of platform paving works
- construction of western entry plaza and upgrade of footpath to platform 2 and lighting
- service installations in footbridge and stairs
- bridge flooring works
- associated carpark works.

Please take care around the work zones.

Construction impacts

Normal working hours are 6am to 5pm Monday to Saturday. Construction activities may involve:

- noise associated with heavy machinery
- temporary changes to station access paths
- changed traffic and parking conditions
- increased vehicle movements near works
- mobile lighting towers for night works.

Residents and the local community will be given advance notification of construction activities likely to cause impacts, including after hours work (nights and Sundays, as required).

We thank you for your patience and cooperation as we work to improve your station.
