

Cooran station platform upgrade

August to December 2018

Queensland Rail is upgrading and modernising the platform at Cooran station to improve facilities for customers. This is part of a \$4 million project to upgrade platforms at three Sunshine Coast line stations, replacing them with more durable, high level structures.

We are staging works to ensure that customers are able to continue to access the train and platform during construction.

The first stage will involve works on the Brisbane end of the platform and will take approximately ten weeks with the second stage on the Gympie end to take approximately six weeks.

To ensure safety, customers will need to be in a specific carriage to exit at Cooran station during works. Please listen out for onboard guard announcements.

If customers miss their stop due to being in the incorrect carriage, please contact Queensland Rail on 13 16 17 or via text to 0428 774 636 and we will make alternative arrangements at the next station.

Thank you for your cooperation and patience as we work to improve your station.

For further information, call 13 16 17 or email communityengagement.com.au

Customers requiring assistance with station access, call 13 16 17 or text only 0428 774 636
