

South Bank platform 1 upgrade

WORKS NOTICE

Night works

December 2021 and January 2022

Due to the recent inclement weather encountered, additional night works are required for the South Bank platform 1 upgrade. Queensland Rail will undertake additional platform works in **December 2021 and January 2022** (weather and construction conditions permitting).

For the safety of our customers and construction workers, these works have been scheduled in the evenings when there is reduced rail traffic. Nearby residents may experience some noise associated with construction activity, machinery and truck movements.

A single lane closure will be in place on Tribune Street, South Brisbane to assist with construction works (see table below for details).

Every effort will be made to minimise disruption and we thank you for your patience while we upgrade platform 1 at South Bank station.

Overview of night and after hours works

Location	Dates and hours of work	Type of work
South Bank station - platform 1	From 6pm to 6am the next day on: <ul style="list-style-type: none">Monday 13 and Tuesday 14 December 2021 (over two nights)Wednesday 5 to Friday 7 January 2022 (over three nights)Monday 10 to Friday 14 January 2022 (over five nights)	Platform footings, finalisation of inground services and concrete pouring: <ul style="list-style-type: none">the use of hand-held tools and powered equipmentoperation of trucks and machinery with flashing lights and reversing beepers, including excavators and jack-hammersmovement of personnel and vehicles around the station precinct, platform 1 rail corridor and Vulture Street (deliveries only).
