

South Bank platform 1 upgrade

WORKS NOTICE

Night and weekend works

Late-February and March 2022

As part of the South Bank platform 1 upgrade, Queensland Rail will undertake platform works in late-February and throughout March (weather and construction conditions permitting).

For the safety of our customers and construction workers, these works have been scheduled when there is reduced rail traffic, when platform 1 is temporarily closed or during a planned track closure. Nearby residents may experience some noise associated with construction activity, machinery and truck movements.

A single lane closure will be in place on Tribune Street, South Brisbane to assist with construction works occurring over weekends (see table below for details).

Every effort will be made to minimise disruption and we thank you for your patience while we upgrade platform 1 at South Bank station.

Overview of night and weekend works and deliveries

Location	Dates and hours of work	Type of work
South Bank station - platform 1	Continuous weekend works from 6.30pm Friday to 4.30am Monday : <ul style="list-style-type: none">Friday 25 to Monday 28 March.
