

South Bank platform 1 upgrade

WORKS NOTICE

Night and weekend works - November 2021

As part of the South Bank platform 1 upgrade, Queensland Rail will undertake platform works in November (weather and construction conditions permitting).

For the safety of our customers and construction workers, these works have been scheduled over weekends when rail traffic does not service the platform and customers cannot access the platform.

Nearby residents may experience some noise associated with construction activity, machinery and truck movements.

A single lane closure will be in place on Tribune Street, South Brisbane to assist with construction works occurring over weekends (see table below for details).

Every effort will be made to minimise disruption and we thank you for your patience while we upgrade platform 1 at South Bank station.

Overview of night and after hours works

Location	Dates and hours of work	Type of work
South Bank station - platform 1	Weeknight works: <ul style="list-style-type: none"> From 1am to 4am Friday 5, 12 and 19 November.
