

## SEQ Rail Stabling Program

### Banyo night works

As part of construction of the Banyo stabling facility, Queensland Rail and CPB Contractors are continuing to undertake works within the rail corridor between Bindha and Nudgee stations.

The activities outlined below are scheduled to occur at night, outside the project's normal working hours, between **19 – 22 December 2016**, weather and construction conditions permitting.

Location	Dates and hours of work	Type of work
Banyo stabling facility construction site and railway corridor between Bindha and Banyo stations	<b>8pm to 4am on each of the following nights:</b> <ul style="list-style-type: none"><li>Monday 19 December</li><li>Tuesday 20 December</li><li>Wednesday 21 December</li><li>Thursday 22 December</li></ul>	<ul style="list-style-type: none"><li>Construction of a signal base at Banyo station</li><li>Rail stressing (weather conditioning) and other minor track work</li><li>Installing overhead electrical wiring</li><li>Installing service pits</li><li>Minor earthworks such as drainage adjacent to the rail line near Bindha station</li></ul>
Nudgee station	<b>Monday 19 December, 8pm to 4am</b>	<ul style="list-style-type: none"><li>Construction of signal base</li><li>Overhead mast works</li></ul>

#### You will notice the following around your local area and on-site during these works:

- Delivery trucks and workers' vehicles entering the site via Guardhouse Road, Railway Parade (north and south), Royal Parade, Purchase Street and Park Street
- Transportation and delivery of materials such as capping and ballast using haulage trucks
- Vehicle routes will include Guardhouse Road, St Vincents Road, Tufnell Road, Purchase Street, Earnshaw Road, Park Street and Royal Parade
- Delivery and unloading of materials and use of machinery such as excavators, mobile cranes, front-end loaders, generators, track mountable excavators and a smooth drum roller machine
- Use of small power tools such as drills, saws and minor vibrating equipment
- Ongoing use of a temporary work and laydown area at the rear of Banyo Memorial Park. Pedestrian access will continue to be maintained through the park during works
- Changed traffic conditions, including reduced speed limits and short traffic delays, will be experienced. Traffic controllers will be on-site when required to assist with changes to pedestrian and vehicle movements.

#### Further information

If you have any questions, or would like to register for more information, please contact the Project Team on 1800 783 334 (free call) or [stabling@qr.com.au](mailto:stabling@qr.com.au). **During out of hours activities CPB Contractors can be reached on 1800 783 334 (press 1).**

# For your information

Queensland Rail and CPB Contractors recognise the disruption these works may have on local residents and will endeavour to minimise the impacts and duration of the work as much as possible. This includes:

- Undertaking a pre-work assessment of the area and eliminating any community impacts where possible
- Maintaining access to residents' properties
- Keeping higher noise-generating activities to the earlier stages of shifts wherever possible
- Ensuring plant / equipment used has been maintained
- Minimising light spill - directing light-generating plant and equipment away from residences
- Conducting toolbox talks with work crews to remind them of out of hours work protocols (no unnecessary noise).

We appreciate your patience during the construction period and will continue to update you as work progresses in 2017.
