

## SEQ Rail Stabling Program Banyo – Lighting and security camera testing

Major construction activities for the Banyo stabling facility are now complete. Minor works will continue to be undertaken within the site until mid-2017.

CPB Contractors is carrying out works to test the lighting equipment at the Banyo stabling facility. **This requires the lights to be at 100% lux (illumination) levels continuously over a period of 100 hours.** This burn-in is a manufacturing requirement to ensure that there are no issues with the lights once they are turned on for operational purposes.\*

In addition to this, the project team will test the Banyo stabling facility's CCTV security system. This work will be undertaken at night using the facility's lighting (between 50% and 100% lux) to enable the CCTV cameras to be focussed for night recording.

### Overview and dates of work

Location	Dates and hours of work	Type of work
Banyo stabling facility, corner of Tuffnell Road and Royal Parade.	<b>From 8am Monday 15 May until 8am Friday 19 May 2017 (continuous over four days and nights)</b>	LED light testing (100-hour burn-in) and CCTV camera testing: <ul style="list-style-type: none"><li>• Use of facility lighting (at 100% illumination level)</li><li>• Essential personnel only.</li></ul>

**\*Once the stabling yard becomes operational the lighting will not be at 100% illumination continuously.**

The project team will endeavour to minimise the impact of works on neighbouring residents as much as possible. This includes:

- Toolbox talks with work crews to remind them of out-of-hours work protocols e.g. no unnecessary shouting, whistling, beeping car horns.

#### Who can I contact?

If you have any questions, or would like to register for more information, please contact the project team on 1800 783 334 (free call) or email [stabling@qr.com.au](mailto:stabling@qr.com.au)  
**CPB Contractors can be reached on 1800 783 334 (press 1).**
