

Nambour station accessibility upgrade

Station access – December 2016

As part of the Nambour station accessibility upgrade, access to the station office and platforms will temporarily change from **Thursday 15 to Friday 23 December 2016**.

Temporary access changes

From approximately 7am on Thursday 15 December, customers will access the station office and all platforms through the temporary entrance where the go card touch-on and touch-off machines are currently located. Customers can then enter the station office from the platform side and access train services.

These temporary arrangements will be in place for one week while the pavement outside the station office entrance is resurfaced and new tactile ground surface indicators are installed.

Christmas update

Construction works at Nambour station will cease from 24 December 2016 to 8 January 2017. The courtesy bus will continue to run over this period.

Keeping you informed

Queensland Rail is committed to keeping stakeholders and the community informed about this project. For more information, please contact the Stakeholder Engagement team on **1800 722 203** (free call), email stationsupgrade@qr.com.au or visit
