

Frederick Street bridge replacement

Project update August 2022

Queensland Rail will start early works on Monday 5 September to deliver a new pedestrian and cycle bridge in Alderley, between Frederick Street and Mina Parade.

Early works involve constructing the bridge approaches on both sides including building a new accessible ramp from Frederick Street. Works will take place 6am to 6pm Monday to Saturday.

Impacts

Machinery and construction noise - Excavators, piling, jackhammering, truck movements, concrete, crane and road works.

Road closure for safety - Between 47 and 55 Frederick Street. Footpath and driveways still open.

Equipment storage - Equipment will be stored in the easement between Waterford Street and the rail line.

Parking - Some on-street parking may be unavailable for safety reasons or if required for work vehicles.

Works are expected to be completed in late-2023. Thank you for your patience.
