

Buses replacing trains

22 – 29 December 2018

Queensland Rail is investing \$56 million to upgrade train signals between Roma Street and Corinda stations, to modernise our network and improve reliability.

This complex project can only be safely completed when there are no trains operating for an extended period. To minimise impacts for our customers, our teams will work throughout the Christmas holiday period when patronage is lower.

While works are underway, timetabled rail replacement buses will replace train services. Timetables will be available online and at bus stops for customer convenience. Please plan your journey in advance at translink.com.au or call 13 12 30 anytime.

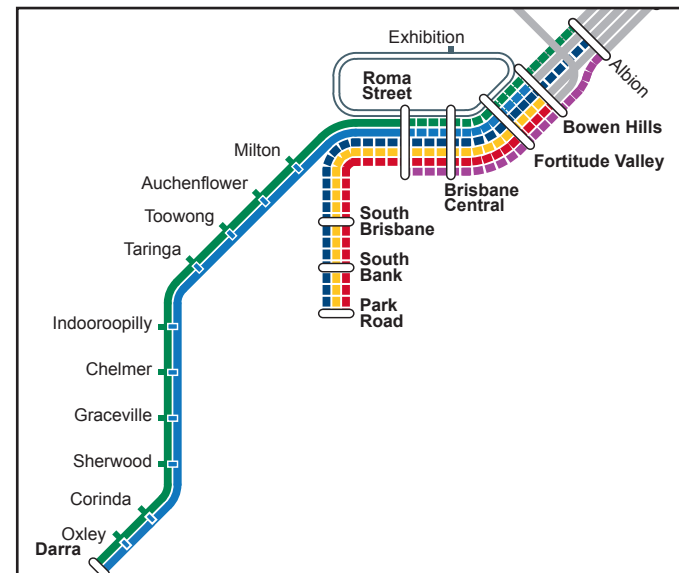

We apologise for any inconvenience and thank you for your patience as we work to upgrade your network.

For more information visit queenslandrail.com.au, call 13 16 17 (business hours) or email customerfeedback@qr.com.au

Closure details

Where are the tracks closed?	When?	What lines are affected?	How frequent are the buses?
