

Coomera to Helensvale Duplication Noise notice – Track resurfacing – Revised dates

June to August 2017

As part of the Coomera to Helensvale Duplication, **track resurfacing** along the rail corridor between Coomera and Helensvale stations is scheduled to occur **from early June until mid-August**, weather and operational factors permitting.

This work involves the use of a loud, slow-moving track resurfacing machine to pack the ballast around the sleepers, ensuring the track is aligned correctly with a solid foundation. For safety reasons this machine will frequently sound safety horns as it moves along the track.

The on-track resurfacing works and on-track tamping machine will **move progressively along the track**, with the machine **returning to each section up to three times** during the scheduled working period (see table below).

Scheduled works – please note revised dates below

Section of track	Dates and hours of work	Type of work
Rail corridor between Coomera station and Coomera River, Coomera	Early to late June 2017 7am to 6pm Monday to Saturday	<ul style="list-style-type: none">• Use of the track resurfacing machine and loud, heavy machinery, including on-track vehicles, loaders and trucks with bright flashing lights and reversing beepers• Ballast removal and replacement• Movement of construction vehicles.
Rail bridge over Coomera River, Hope Island Road, Saltwater Creek, Helensvale	Revised dates: Mid-June to mid-August 2017 7am to 6pm Monday to Saturday	
Rail corridor between Saltwater Creek and Helensvale station, Helensvale	Revised dates: Mid-June to mid-August 2017 7am to 6pm Monday to Saturday	

Residents located near the rail corridor should expect increased noise and dust associated with this activity.

Queensland Rail appreciates the local community's cooperation during these important works.
