

Alderley station accessibility upgrade

Project update – December 2016

The Alderley station accessibility upgrade is part of Queensland Rail's \$212 million upgrade program and is expected to be completed by late 2017, weather and construction conditions permitting.

Night works rescheduled

Due to a review of the construction program, night works advised to occur through December have been **rescheduled to occur in 2017** and will be combined with essential night works to minimise disruption. We apologise for any inconvenience caused.

Project progress

The following works were recently completed at Alderley station:

- electrical conduit works on platforms
- excavation and trenching platform works
- excavation of lift shafts.

Upcoming work

In the coming weeks, customers and the community can expect to see the following construction activities:

- structural steel framing works for lift shafts
- excavation and foundation works for the new footbridge stairs and heritage shelter on platform 1
- installation of temporary customer access paths to be used in early 2017 as works progress.

Christmas shutdown

The Alderley station accessibility upgrade project will be closed from Saturday 24 December, returning Tuesday 3 January. No project upgrade works will take place during this time.

Queensland Rail thanks you for your patience and understanding throughout 2016, and wishes you all a very safe and happy Christmas and New Year.

Construction impacts

Customers, residents and businesses adjacent to Alderley station may experience the following:

- noise associated with heavy machinery
- changed traffic and parking conditions
- mobile lighting towers for night works
- increased vehicle movements near works
- temporary changes to access paths throughout the station precinct.

Pedestrians are advised to follow all directional signage during this time.

Residents and other stakeholders will be given advance notification of construction activities likely to cause impacts, including after hours work (nights and Sundays as required).

Keeping you informed
