

Alderley station accessibility upgrade

Project update – February 2017

The Alderley station accessibility upgrade is part of Queensland Rail's \$212 million upgrade program and is expected to be completed by late 2017, weather and construction conditions permitting.

Project progress

Main construction works are underway at Alderley station.

The following works were recently completed:

- delivery of temporary ticket office, electrical works and fit-out
- scaffolding for footbridge and lift tower works (pictured, below)
- commencement of platform raising (pictured, right).

Upcoming work

In the coming weeks, customers and the community can expect to see the following construction activities:

- opening of temporary ticket office and toilet facilities
- ongoing platform raising works
- existing station building refurbishment works
- commencement of lift installations.

Construction impacts

Customers, residents and businesses adjacent to Alderley station may experience the following:

- noise associated with heavy machinery
- changed traffic and parking conditions
- mobile lighting towers for night works
- increased vehicle movements near works
- temporary changes to access paths throughout the station precinct.

Pedestrians are advised to follow all directional signage during this time.

Residents and other stakeholders will be given advance notification of construction activities likely to cause impacts, including after hours work (nights and Sundays, as required).

Keeping you informed
