

Alderley station accessibility upgrade

Project update – May 2017

The Alderley station accessibility upgrade is part of Queensland Rail's \$212 million upgrade program and is expected to be completed by late 2017, weather and construction conditions permitting.

Project progress

The following works were recently completed at Alderley station:

- platform-raising (in stages)
- installation of platform shelters
- installation of new footbridge stairs
- cladding and glazing of the lift shafts
- commencement of lift installations.

Upcoming work

In the coming weeks, customers and the community can expect to see the following construction activities:

- ongoing station building upgrade works
- erection of heritage waiting shelter on platform 1
- ongoing platform-raising works
- removal of old footbridge and foundations
- opening of new staircases.

New shelter and seating, platform 1.

Construction impacts

Customers, residents and businesses adjacent to Alderley station may experience the following:

- noise associated with heavy machinery
- changed traffic and parking conditions
- mobile lighting towers for night works
- increased vehicle movements near works
- temporary changes to access paths throughout the station precinct.

Pedestrians are advised to follow all directional signage during this time.

Residents and other stakeholders will be given advance notification of construction activities likely to cause impacts, including after hours work (nights and Sundays, as required).

Keeping you informed
