

# Buranda station accessibility upgrade

WORKS NOTICE

## Night works – overhead line infrastructure

### October 2019

As part of preliminary works in preparation for the Buranda station accessibility upgrade, overhead line infrastructure works will be undertaken over four nights between **Monday 21 and Thursday 24 October 2019**, from **10pm until 6am** the next day (weather and construction conditions permitting). For the safety of workers and the public, these works have been scheduled after hours when there is no rail traffic.

Local residents may experience some noise associated with construction activity and truck movements in the vicinity of Arne, Gillingham and Martin Streets. Mobile lighting towers will be used during night works. Every effort will be made to minimise disruption and we apologise for any inconvenience as we undertake this concentrated period of early works.
