

# Cannon Hill station accessibility upgrade

WORKS NOTICE

## Night works – overhead line infrastructure

### August 2019

In preparation for the Cannon Hill station accessibility upgrade, overhead line infrastructure works will be undertaken on **selected nights in August**, between **10pm and 5am** the next day.

Due to the nature of these works and for the safety of workers and the public, these works have been scheduled after hours, when there is no rail traffic and the overhead power is switched off. *In the event of adverse weather conditions, works will be rescheduled to the last two weeks in August.*

Residents near the station may experience some noise associated with construction activity and truck movements. Mobile lighting towers will be used during night works.
