

Dinmore station accessibility upgrade

Project update – April 2017

The Dinmore station accessibility upgrade is part of Queensland Rail's \$212 million station upgrade program and is expected to be completed in mid-2017, weather and construction conditions permitting.

Project progress

The following construction activities were recently undertaken at Dinmore:

- waiting shelter installation works
- carpark asphaltting (pictured, right)
- lift commissioning works.

Upcoming work

In the coming weeks, customers and the community can expect to see the following construction activities:

- ongoing carpark upgrade works
- landscaping and fencing installations
- overhead power equipment modifications.

Residents and other stakeholders will be given advance notification of construction activities likely to cause impacts, including after hours work (nights and Sundays, as required).

Construction impacts

Customers and residents adjacent to Dinmore station may experience:

- noise associated with heavy machinery
- use of reversing beepers
- mobile lighting towers for night works
- changed traffic and parking conditions
- increased vehicle movements around the work zone.

Pedestrians are asked to follow all directional signage during this time.

Please take care around the work zones.

Keeping you informed
