

# Graceville station accessibility upgrade

## Project update – February 2017

The Graceville station accessibility upgrade is part of Queensland Rail's \$212 million station upgrade program and is expected to be completed by late-2017, weather and construction conditions permitting.

### Project progress

The following construction activities were recently completed:

- opening of upgraded platforms 3 and 4 via new stairs to subway
- commencement of upgrade to platform 1
- awning refurbishment works on platforms 3 and 4 (pictured, below).

### Upcoming work

In the coming weeks, customers and the community can expect to see the following construction activities:

- trenching and conduit works on platform 1
- ongoing lift shaft construction works including excavations and concreting
- installation of light pole footings for upgrade to platforms 1 and 2 lighting
- service investigation works.

### Construction impacts

Customers, residents and businesses adjacent to Graceville station may experience the following:

- noise associated with heavy machinery
- use of reversing beepers
- changed traffic and parking conditions
- mobile lighting towers for night works
- increased vehicle movements near works
- temporary changes to access paths throughout the station precinct.

Pedestrians and motorists are advised to follow all directional signage during this time.

Residents and other stakeholders will be given advance notification of construction activities likely to cause impacts, including after hours work (nights and Sundays, as required).

### Keeping you informed
