

Coomera to Helensvale Duplication Increased truck movements and material deliveries – Helensvale

May 2017

From May 2017, Queensland Rail will deliver materials required for construction of rail maintenance access roads and track structure to the rail corridor at Condamine Crescent and Clarence Drive.

Delivery of materials to established laydown areas in the rail corridor is expected to continue until September 2017.

Materials delivered will include machinery, rail sleepers, ballast and road base and will be stored and collected for use until the completion of rail systems and track works in late 2017, weather permitting.

Overview of work

Location	Dates and hours of work	Type of work
Rail corridor at Condamine Crescent and Clarence Drive, Helensvale	May to late 2017 7am-6pm Monday to Saturday	<ul style="list-style-type: none">• Increased construction vehicle movements along haulage routes• Unloading construction materials (sleepers and ballast) from trucks• Storage, collection and movement of materials within the laydown area• Access to rail corridor by project workers and vehicles.

Residents and businesses near the rail corridor may experience increased heavy vehicle movements, as well as noise and dust associated with the delivery of sleepers, ballast and road base. Dust suppression measures will be implemented.

Where required, traffic control will be in place to ensure the safety of motorists, pedestrians and workers.

Queensland Rail apologises for any inconvenience and thanks the local community for their cooperation during these important works.
