

Newmarket station accessibility upgrade

Project update – May 2017

The Newmarket station accessibility upgrade is part of Queensland Rail's \$212 million upgrade program and is expected to be completed by mid-2017, weather and construction conditions permitting.

Project progress

The following construction activities were recently completed at Newmarket station:

- installation of new footbridge stairs
- installation of platform canopy steelwork
- asphaltting of northern platform area
- ongoing platform and station building works
- scaffolding of lift tower in preparation for lift installation.

Upcoming work

In the coming weeks, customers and the community will see the following activities:

- pressure cleaning and painting of platform walls
- Abuklea Street stairs and ramp works
- installation of glazing and roofing of lift shaft
- ongoing electrical and communications services installations.

The subway remains closed to the public for the duration of works. All access to the temporary platforms will be from the Wilston Road level crossing end of the station.

Construction impacts

Customers, residents and businesses adjacent to Newmarket station may experience the following:

- noise associated with heavy machinery
- use of reversing beepers
- changed traffic and parking conditions
- mobile lighting towers for night works
- increased vehicle movements around the work zones
- temporary changes to access paths throughout the station precinct.

Pedestrians are advised to follow all directional signage during this time.

Residents and other stakeholders will be given advance notification of construction activities likely to cause impacts, including after hours work (nights and Sundays, as required).

Keeping you informed
