

Auchenflower station accessibility upgrade

PROJECT UPDATE – SEPTEMBER 2020

The Auchenflower station accessibility upgrade is part of the State Government's \$357 million investment to upgrade stations across the South East Queensland network, making them accessible for all customers.

Project progress

Works recently undertaken at Auchenflower include:

- underground services works
- removal of some existing structures and waiting shelters
- ongoing station upgrade design
- overhead line infrastructure wiring adjustments and some mast removal
- temporary relocation of bike lockers.

Upcoming works

In the coming weeks, the following activities will be undertaken:

- establishment of contractor's site facilities
- removal of remaining platform waiting shelters
- relocation of ticketing equipment – platform 2/3
- overhead line mast removal and signalling activities (night works).

Construction impacts

During works, construction activities may involve:

- changed parking and traffic conditions for safety
- noise associated with heavy machinery
- temporary changes to access paths throughout the station precinct and surrounding areas
- increased vehicle movements near works
- mobile lighting towers for night works.

Normal working hours are 6.30am to 6.30pm, Monday to Saturday.

The local community will be given advance notification of construction activities likely to cause impacts, including after hours work (nights, Sundays and public holidays, if required).

Thank you for your patience and cooperation as we build you a better Auchenflower station.

Novel Coronavirus (COVID-19)

To support workforce safety during this challenging time, Queensland Rail has implemented a number of additional control measures related to COVID-19 management. We will continue to take the necessary precautions to ensure the ongoing health and wellbeing of our team and the communities in which we operate.
