

# Boondall station accessibility upgrade

PROJECT UPDATE – JULY 2019

Queensland Rail's Boondall station accessibility upgrade is part of the program to upgrade stations across the South East Queensland network, making them accessible for all customers.

## Project progress

Activities undertaken recently at Boondall have included:

- construction of lift shafts to platform level – platforms 1 and 2
- concrete pours for lift wells – platforms 1 and 2
- prepare footings and landings – Aberdeen Parade, platform 2
- platform 1 roof structure
- installation of new footbridge and stairs (pictured).

## Upcoming works

In the coming weeks, customers and the community can expect to see the following activities:

- installation of platform 2 stairs
- installation of pre-cast lift shafts
- electrical upgrade
- platform raising.

The station will be closed for uninterrupted works from 11.30pm Friday 2 until 4am Monday 5 August. Rail services will not stop at Boondall during this time. Half-hourly shuttle buses will take customers to North Boondall to connect with inbound and outbound services (allow an additional 30 minutes' travel time).

## Construction impacts

Normal working hours are 6am to 5pm Monday to Saturday. Construction activities may involve:

- noise associated with heavy machinery
- temporary changes to station access paths
- changed traffic/parking conditions (Aberdeen Parade)
- increased vehicle movements near works
- mobile lighting towers for night works.

Please take care around the work zones.

Local residents will be given advance notification of construction activities likely to cause impacts, including after hours work (nights and Sundays, as required).

We thank customers and the community for your patience and cooperation as we work to improve your station.
