

East Ipswich station accessibility upgrade

PROJECT UPDATE – AUGUST 2021

The East Ipswich station accessibility upgrade is part of the State Government's ongoing investment of more than \$500 million to upgrade stations across the South East Queensland network, making them accessible for all customers.

Project progress

The following works were undertaken at East Ipswich in July:

- raising sections of existing platforms
- reinstallation of heritage shelter – platform 2 (new location)
- platform works including painting, paving and tiling
- installation of stairs to new footbridge
- footbridge fit-out (security screens)
- lift installation (ongoing)
- entrance ramp works – Coronation Street (ongoing).

Upcoming works

In the next month, customers and the community can expect to see the following activities:

- entrance ramp works – Coronation Street
- concrete pour – retaining wall footings
- surveying activities and civil works – platform 2
- station building works
- electrical works – platform 1
- roofing and painting – relocated heritage shelter
- ongoing lift installation
- ongoing stormwater and sewerage works.

Construction impacts

During works, construction activities may involve:

- changed parking and traffic conditions for safety
- noise associated with heavy machinery
- temporary changes to access paths throughout the station precinct and surrounding areas
- increased vehicle movements near works
- mobile lighting towers for night works.

Normal working hours are 6.30am to 6.30pm, Monday to Saturday.

The local community will be given advance notification of construction activities likely to cause impacts, including after hours work (nights, Sundays and public holidays, if required).

Thank you for your patience and cooperation as we build you a better East Ipswich station.
