

# Auchenflower station accessibility upgrade

WORKS NOTICE

## Night works

April 2022

As part of the Auchenflower station accessibility upgrade, Queensland Rail will undertake **after hours works on selected nights in April**.

For safety, these works can only be undertaken after hours when rail traffic is reduced and there are fewer people around the station precinct.

These works are a continuation of activities previously notified. Activities include concrete pumping related to the Lang Parade abutment for the new pedestrian footbridge, due to be installed in May.

**Traffic management in Lang Parade, near the work zone, may be required to support concrete trucks and construction activities.**

Residents near the station may experience noise associated with trucks movements and construction activity. Every effort will be made to minimise disruption and we thank you for your patience during these important works.
