

East Ipswich station accessibility upgrade

WORKS NOTICE

Night works and overhead line activities (preliminary works)

April 2020

As part of ongoing preliminary works for the East Ipswich station accessibility upgrade, Queensland Rail has scheduled **night and other associated works in April 2020** (weather and construction conditions permitting).

These activities are required to prepare for works during a scheduled track closure in early May 2020 (to be notified closer to the date). Where indicated, night works can only be undertaken when there is reduced rail traffic or the overhead power is switched off.

Nearby residents may notice noise associated with construction activities in the vicinity of the station precinct and adjacent rail corridor. Every effort will be made to minimise disruption and we apologise for any inconvenience as we work to improve your station.

Overview of works

Location	Dates and hours of work	Type of work
East Ipswich station precinct (including carparks and rail corridor)	<i>Set up work compound in carparks and deliveries of materials:</i> Between Monday 6 and Friday 10 April (daytime shifts)	Preliminary works involving: <ul style="list-style-type: none">• deliveries of materials including ballast (rock) to the carpark and rail corridor (daytime shifts, 6 to 10 April)• excavation and cable relocation (daytime shifts, 7 to 10 April)
