

# East Ipswich station accessibility upgrade

WORKS NOTICE

## Night works

### February 2021

As part of the East Ipswich station accessibility upgrade, Queensland Rail will undertake concrete pours for the new station platforms each night **from Monday 8 to Saturday 13 February 2021**.

Track resurfacing activities will also be undertaken over two nights on **Sunday 21 and Monday 22 February 2021**.

Due to the nature and location of these works, activities have been scheduled after hours when there is reduced rail traffic on the line. Dates may be subject to change due to weather and other construction conditions.

Every effort will be made to minimise disturbance wherever possible. We apologise for any inconvenience and appreciate your patience as we undertake these important works.
