

Coomera to Helensvale Duplication

Night noise notice – Coomera rail corridor

September 2017

In preparation for final resurfacing works for the new duplicated Coomera to Helensvale line, Queensland Rail will deliver track resurfacing machinery to Coomera station, during a scheduled track closure, for works to be carried out from **4pm Sunday 17 September to 7am Monday 18 September**, weather and operational factors permitting.

For safety and in order to maintain services during the day, this work must be undertaken at night.

The work will involve track construction, laying ballast and the use of loud, slow-moving track resurfacing machines to ensure the track is aligned correctly with a solid foundation. Track resurfacing machinery will then be transported along the new railway track between Coomera station and Coomera River ahead of resurfacing works during late September and early October.

Scheduled night works

Location	Dates and hours of work	Type of work
Rail corridor around Coomera station and	4pm Sunday 17 to 7am Monday 18 September (continuous works during overnight track closure)	<ul style="list-style-type: none">• Unloading of heavy machinery at Coomera station• Track construction and laying ballast• Use of loud machinery including on-track vehicles, loaders and trucks with reversing beepers and flashing lights
Between Coomera station and Coomera River	Rail services on Monday morning will be unaffected.	<ul style="list-style-type: none">• Rail traffic in the corridor overnight• Transportation of resurfacing machines via new track from Coomera station to Beattie Road, Coomera• Use of safety horns• Use of mobile lighting towers.

Residents located near the rail corridor in these areas should expect increased noise and dust associated with this activity, as well as increased construction vehicle movements. Residents closest to the corridor may also notice lighting at night.

Queensland Rail apologises for any inconvenience caused and appreciates the local community's cooperation during these important works.
