

## SEQ Rail Stabling Program

### Banyo night works

As part of construction of the Banyo stabling facility, Queensland Rail and CPB Contractors are continuing to undertake works between Bindha and Nudgee stations.

The activities outlined below are scheduled to occur at night between **16 – 31 October 2016**, weather and construction conditions permitting. These activities will occur outside the project's normal working hours, as outlined below:

Location	Dates and hours of work	Type of work
Banyo stabling facility construction site and railway corridor between Bindha station and Purchase Street	<b>Sunday 16 October – Thursday 20 October 2016, 10pm to 4am each night</b>	<ul style="list-style-type: none"><li>• Installation of overhead line equipment masts</li><li>• Installation of cables and services for overhead line equipment</li><li>• Construction of a signal foundation at Banyo station</li></ul>
Railway corridor between Bindha and Nudgee stations	<b>8pm Friday 28 October until 5am Monday 31 October 2016, continuous works</b>	<ul style="list-style-type: none"><li>• Removal and replacement of ballast, pavement layers and track at railway crossover north of Bindha station</li><li>• Track resurfacing</li><li>• Earthworks for culverts and improved drainage</li><li>• Installation of signals and signal masts</li><li>• Installation of cables and services for overhead line equipment</li><li>• Installation of electrical services, CCTV and lighting foundations to the Banyo station commuter carpark</li><li>• Installation of electrical conduits underneath the railway line</li><li>• Installation of security fence located close to the rail line.</li></ul>

#### You will notice the following around your local area and on-site during these works:

- Delivery trucks and workers' vehicles entering the site via Guardhouse Road, Railway Parade (north and south), Royal Parade, Purchase Street and Park Street
- Transportation and delivery of materials such as capping and ballast using haulage trucks
- Vehicle routes will include Guardhouse Road, St Vincents Road, Tufnell Road, Purchase Street, Earnshaw Road, Eames Street, Park Street and Royal Parade
- Delivery and unloading of materials and use of machinery such as excavators, mobile cranes, front-end loaders, generators, track mountable excavators and a smooth drum roller machine
- Use of small power tools such as drills, saws and minor vibrating equipment
- Ongoing use of a temporary work and laydown area at the rear of Banyo Memorial Park. Pedestrian access will continue to be maintained through the park during works
- Changed traffic conditions, including reduced speed limits and short traffic delays, will be experienced. Traffic controllers will be on-site when required to assist with changes to pedestrian and vehicle movements.

# For your information

Queensland Rail and CPB Contractors recognise the disruption these works may have on local residents and will endeavour to minimise the impacts and duration of the work as much as possible.

This includes:

- Maintaining access to residents' properties
- Keeping higher noise-generating activities to the earlier stages of shifts wherever possible
- Ensuring plant / equipment used has been maintained
- Minimising light spill - directing light-generating plant and equipment away from residences
- Conducting toolbox talks with work crews to remind them of out of hours work protocols (no unnecessary noise).

We appreciate your patience during the construction period and will continue to update you as work progresses.
