

SEQ Rail Stabling Program – Banyo July construction notice (continued)

As part of construction for the Banyo stabling facility, Queensland Rail and CPB Contractors are continuing to undertake various construction activities between Bindah and Nudgee railway stations.

The construction activities outlined on the back of this notice are scheduled to be undertaken between 15 July – 5 August 2016, weather and construction conditions permitting. Some of these activities will occur outside the project's normal working hours.

What can I expect during these works?

- Delivery trucks and workers' vehicles entering the site via Guardhouse Road, Railway Parade (north and south), Royal Parade, Purchase Street and Park Street
- Vehicle routes will include St Vincents Road, Tufnell Road, Purchase Street, Earnshaw Road, Eames Street, Park Street and Royal Parade
- Delivery and unloading of materials and use of machinery such as excavators, mobile cranes, front-end loaders, generators, track mountable excavators, resurfacing machines and a smooth drum roller machine
- Use of small power tools such as drills, saws and minor vibrating equipment
- Mobile lighting towers to light the work areas
- Use of a temporary work and laydown area at the rear of Banyo Memorial Park. Pedestrian access will be maintained through the park during these works.
- Changed traffic conditions, including reduced speed limits and short traffic delays, will be experienced. Traffic controllers will be on-site when required to assist with changes to pedestrian and vehicle movements.

For your information

Overview of works

Location	Dates and hours of work	Type of work
Banyo stabling facility construction site, including railway corridor from Bindah station to north of Banyo station	July 2016 – ongoing 6.30am to 5pm, Monday to Saturday	<ul style="list-style-type: none">• Installation of associated utility services such as water, sewer and drainage• Construction of overhead line equipment and signal foundations• Construction of rail turnout and crossover• Construction of stabling facility security fence
