

SEQ Rail Stabling Program

Banyo - January night work and construction update

As part of construction of the Banyo stabling facility, Queensland Rail and CPB Contractors are continuing to undertake works within the rail corridor between Bindha and Nudgee stations.

The activities outlined below are scheduled to occur at night, outside the project's normal working hours, from **Sunday 15 to Thursday 19 January 2017**, weather and construction conditions permitting.

| Location | Dates and hours of work | Type of work |
|---|---|---|
| Banyo stabling facility construction site and railway corridor, between Bindha and Banyo stations | 10pm to 4am on each of the following nights: <ul style="list-style-type: none">• Sunday 15 January• Monday 16 January• Tuesday 17 January• Wednesday 18 January• Thursday 19 January. | <ul style="list-style-type: none">• Installing signals• Minor track work• Installing overhead lines/wires |

In addition to the above night work, the following activities are scheduled to occur between **6.30am and 5pm, Monday to Saturday throughout January and into February 2017**, weather and construction conditions permitting.

Activities include:

- Earthworks and ground preparation for the stabling facility access road and carpark
- Earthworks and construction of extension to Banyo station customer carpark
- Installation of associated utility services
- Geotechnical investigations and construction of a visual barrier along Royal Parade
- Construction of stabling facility security fence
- Installing crew facility building.

Queensland Rail and CPB Contractors recognise the disruption these works may have on local residents and will endeavour to minimise the impacts and duration of the work as much as possible.

This includes:

- Undertaking a pre-work assessment of the area and eliminating any community impacts where possible and conducting toolbox talks with work crews to remind them of out-of-hours' work protocols (no unnecessary noise)
- Maintaining access to residents' properties
- Keeping higher noise-generating activities to the earlier stages of shifts wherever possible
- Ensuring plant / equipment used has been maintained and light-generating plant and equipment is directed away from residences.

For your information

You will notice the following around your local area and on-site during these works:

- Delivery trucks and workers' vehicles entering the site via Guardhouse Road, Railway Parade (north and south), Royal Parade, Purchase Street and Park Street
- Workers may begin arriving to site from approximately 5.30am (6.30am start), 7pm (8pm start) and 9pm (10pm start)
- Vehicle routes will include St Vincents Road, Tufnell Road, Purchase Street, Earnshaw Road, Eames Street, Park Street and Royal Parade
- Delivery and unloading of materials and use of machinery such as excavators, mobile cranes, front-end loaders, generators, track mountable excavators and a smooth drum roller machine
- Use of small power tools, drills, saws, minor vibrating equipment and mobile lighting towers to light the work areas at night
- Changed traffic conditions, including reduced speed limits and short traffic delays, will be experienced. Traffic controllers will be on-site when required to assist with changes to pedestrian and vehicle movements.

Further information

If you have any questions, or would like to register for more information, please contact the Project Team on 1800 783 334 (free call) or stabling@qr.com.au. **During out of hours activities CPB Contractors can be reached on 1800 783 334 (press 1).**

Visit www.queenslandrail.com.au/stabling for more information and updates.

We appreciate your patience during the construction period and will continue to update you as work progresses.
