

Buranda station accessibility upgrade

PROJECT UPDATE – APRIL 2025

The Buranda station accessibility upgrade is part of Queensland Rail's program to make our stations accessible for everyone.

About the project

Buranda station is being upgraded to make it more accessible, and easier for customers to travel on our network.

The new, modern station will help people in wheelchairs, parents with prams and those travelling with luggage or who are injured, use the station with ease.

Project status

The station accessibility upgrade is progressing well since the installation of major structural station features including the stairs, footbridge and lifts.

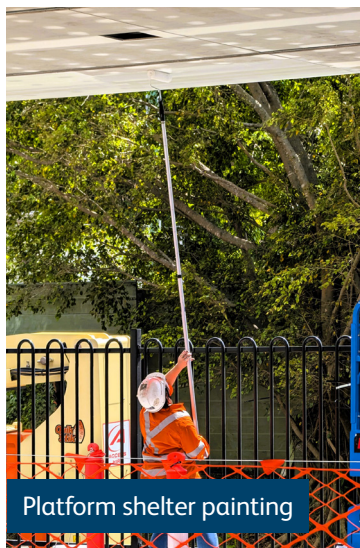

The focus is now to commence and complete fitout of station services and safety features, including platform finishings and behind-the-scenes works like electrical and mechanical services.

Works currently underway include:

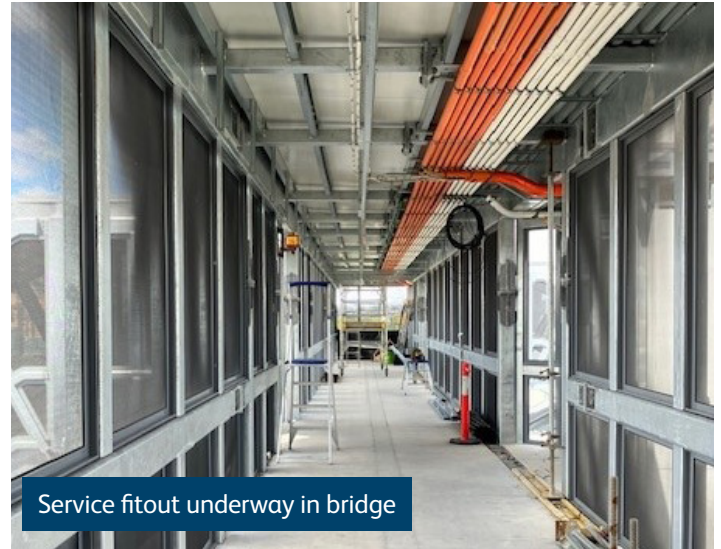

- platform finishing works, including painting and fencing on platform 1 and 2
- installation of electrical and communication networks on the platform, stairs, footbridge and lifts
- completion of the platform shelters roof waterproofing.

Platform tactile surfaces

Platform shelter painting

Service fitout underway in bridge

Upcoming works

Some of the activities planned in the coming month include:

- continuation of station finishes, including painting
- continuation of installation of station electrical, mechanical and communication networks
- continuation of works at station entrances.

Construction impacts

All works will generally take place between 6am and 6pm Monday to Saturday, unless notified.

Every effort will be made to carry out these works with respect for our neighbours and customers.

Weekend works will occur on Saturday 24 and Sunday 25 May, and Saturday 7 and Sunday 8 June 2025 during planned closures of the inner city and Cleveland lines.

We will advise the community of the impacts of these after hours works closer to the time.
