

Burpengary station accessibility upgrade

PROJECT UPDATE – JUNE 2023

The Burpengary station accessibility upgrade is part of the State Government's ongoing investment to upgrade stations across the South East Queensland network, making them more accessible for customers.

About the project

The Burpengary station accessibility upgrade will deliver an improved station and facilities that provide a service that is accessible, easy to get to, and easy to use.

These improvements enable all customers to access the train, station and platforms via paths, ramps or lifts, without the need to use stairs.

Key features of the upgrade include:

- a new footbridge with lift access
- improved accessible parking
- full length high-level platforms
- upgraded hearing augmentation loops and tactile ground surface indicators
- upgraded security cameras and lighting
- new wayfinding and platform signage
- new station office and facilities.

Project status

Hutchinson Builders was recently appointed to deliver the Burpengary station upgrade with main construction expected to start in August.

Hutchinson Builders has worked with Queensland Rail to deliver the Platform 1 upgrade at South Bank station and the East Ipswich station upgrade.

Early works to support this upgrade, including the relocation of overhead line infrastructure, took place earlier this year and late last year. Community consultation also helped inform the detailed design for this upgrade.

Upcoming works

Customers and the local community can expect to see the following activities over the coming weeks (see map on next page for locations):

- Installation of test ground screws to anchor foundations in the eastern and western carpark between 6am and 6pm from Friday 9 June to Friday 15 June
- Minor foundation works between 6am and 6pm on Saturday 17 and Sunday 18 June
- Installing the support structures (masts) for overhead wires on the new concrete bases
- Further works to the overhead lines
- Removal of four trees to make way for construction. These will be removed between 6am and 6pm during the week commencing Monday 26 June
- Site compound establishment from 6am to 6pm from Monday 3 July - this part of the carpark will close during the upgrade works.
