

Cannon Hill station accessibility upgrade

PROJECT UPDATE – JANUARY 2022

The Cannon Hill station accessibility upgrade is part of the State Government's ongoing investment of more than \$500 million to upgrade stations across the South East Queensland network, making them more accessible for customers.

Project progress

The following works have recently been carried out at Cannon Hill station:

- asphalt works on both platforms - behind temporary fencing
- back of platform screening and ticketing works
- lightpole footings throughout the station precinct
- commissioning of new communication systems and permanent footbridge and canopy lighting
- installation of footpath at the back of platform 2
- paving on both platforms.

Upcoming works

Customers and the local community can expect to see the following activities over the coming weeks:

- installation of downpipes to the back of both platform canopies and footbridge stairs
- lightpole installations throughout the precinct
- ongoing installation of platform infrastructure and station signage
- ongoing landscaping and garden bed works
- finalisation of station entrance and lift shaft works
- kerb and asphalt works between the back of platform 2 and the Cannon Hill depot
- reinstatement of permanent station fencing
- carpark rectification works and line marking in the northern park 'n' ride.

Construction impacts

During the station upgrade, changes due to construction activities may include:

- changed parking and traffic conditions for safety
- noise associated with heavy machinery
- temporary changes to access paths throughout the station precinct and surrounding areas
- increased vehicle movements near works
- the use of mobile lighting towers (for night works).

Normal working hours are 6.30am to 6.30pm, Monday to Saturday.

The local community will be given advance notice of construction activities likely to cause impacts, including after hours work (nights, Sundays and public holidays).

We thank you for your patience and cooperation as we build you a better Cannon Hill station.
