

SEQ Rail Stabling Program – Elimbah construction update

CPB Contractors is continuing work on the construction of the Elimbah stabling facility. The below activities are scheduled to be undertaken between **6.30am and 5pm, Monday to Saturday** throughout **September and October 2016**, weather and construction conditions permitting.

Activities include:

- Earthworks, including asphaltting of walkways and carpark within the stabling facility site
- Installation of drainage, water and sewerage services
- Overhead line equipment (OHLE) and signal works
- Installation of lighting, CCTV and driver platforms
- Installation of the security fence and train gate for the facility.

You will notice the following around your local area and on-site during these works:

- Delivery trucks and workers' vehicles entering the site via Sanna Court
- Transportation and delivery of materials using vehicle routes which include Sanna Court, Mansfield Road and Beerburrum Road
- Unloading of materials and use of machinery such as excavators, mobile cranes, front-end loaders, generators, track mountable excavators and a smooth drum roller machine
- Use of small power tools such as drills, saws and minor vibrating equipment
- Mobile lighting towers to light the work areas
- Changed traffic conditions, including reduced speed limits and short traffic delays, will be experienced. Traffic controllers will be on-site when required to assist with changes to pedestrian and vehicle movements.

For your information

Queensland Rail and CPB Contractors recognise the disruption these works may have on local residents and will endeavour to minimise the impacts and duration of the work as much as possible. We appreciate your patience during the construction period and will continue to update you as work progresses.

Further information
