

Night works

Indooroopilly rail bridge

August 2025

What?

Queensland Rail will undertake safety-critical bridge maintenance activities after hours to support the current refurbishment works on the Indooroopilly rail bridge.

When?

Works will be carried out on selected nights in August:

- **Tuesday 5 and Wednesday 6 August, from 10pm until 4am the next day** (over two nights)
- **Monday 11 to Friday 15 August, from 4pm until 5am the next day** (over five nights).

These works have been scheduled overnight when there are fewer rail services operating or when freight can be diverted.

Where?

Works will mainly occur on the central section of the Indooroopilly Bridge (steel rail bridge between the Walter Taylor road bridge and the Albert rail bridge).

Residents may notice noise associated with the relocation of track-level hoarding and the operation of machinery, including generators, compressors, powered tools and equipment. There may be an increase in project vehicles on surrounding roads near the work compounds on either bank of the river.

Impacts

Trucks and on-track vehicles with flashing lights and reversing beepers

Night works

Operation of machinery (generators, compressors) and powered tools and equipment

Lighting towers at night

Every effort will be made to carry out these works with respect for our valued neighbours. We apologise for any inconvenience and thank you for your understanding during these important works. Works may be subject to change due to weather conditions and operational requirements.
