

29 February 2016

To our valued neighbours

The 14 kilometres of new track for the Moreton Bay Rail Link is complete and it is now time for Queensland Rail to commence testing and commissioning. Testing of the track and signalling infrastructure will start in March 2016, in preparation for train services to begin in mid-2016.

Before testing begins, we would like to take the opportunity to introduce ourselves to the community and provide you with an understanding of what it is like to live near a railway line.

Queensland Rail has a long and proud history of connecting communities right throughout the state. We pride ourselves on being a good neighbour and we work hard to minimise the impact of our operations on our neighbours wherever possible.

Please find enclosed important information about living near a railway line, as well as more details on the testing and commissioning works.

In the coming weeks, Queensland Rail will be out in the Moreton Bay region holding drop-in information sessions at various locations from 9.00am-11.00am Saturday 9, 16 and 23 April 2016. We will provide further details around the locations in the coming weeks.

To find out more about these sessions, register your name, address and contact details at **mbri@qr.com.au**

We hope you can join us for a cup of tea or coffee to share your feedback and ask any questions you may have around our operations.

We will schedule further drop-in sessions throughout the year.

In the meantime, if you have any questions or feedback about Queensland Rail, please do not hesitate to contact us on **1800 096 821 (select option 2)** or email **mbri@qr.com.au**

We look forward to introducing ourselves to you and becoming part of the Moreton Bay community.

Yours sincerely

**Rebecca Masci**  
General Manager Corporate and Customer Relations
