

Footbridge and carpark closure

Queensland Rail will carry out underground service and geotechnical works at Morningside station during the planned track closure. This will include drilling and earthworks, to assist with the future station upgrade.

The following station precinct changes will be in place to enable this work:

- Partial carpark closure - from 3am Friday 14 July until 6am Saturday 15 July
- Full carpark and footbridge closure - from 6am Saturday 15 July to 6pm Sunday 16 July.

Please assist by removing your vehicle from the affected car spaces by **11pm the night prior** to their closure.

Rail replacement buses will depart from Wynnum Road during the planned track closure. Please use the pedestrian diversion shown below to get to Wynnum Road (approximately 8 minute walk/500 metres).

We appreciate your cooperation while we carry out this important work.
