

# Cannon Hill station accessibility upgrade

PROJECT UPDATE – MAY 2021

The Cannon Hill station accessibility upgrade is part of the State Government's ongoing investment of more than \$500 million to upgrade stations across the South East Queensland network, making them more accessible for customers.

## Project progress

The following works have recently been carried out at Cannon Hill station:

- closure of the station entrance to complete ramp works and construction of a temporary footpath to facilitate new station access to platform 2
- temporary closure of the station toilet to complete modification works
- installation of the new footbridge stairs leading to platform 2
- installation and realignment of the kerb and adjacent slab in the northern park 'n' ride.

## Upcoming works

Customers and the local community can expect to see the following activities over the coming weeks:

- ongoing modification works on the ticket window, station toilet and station entrance
- installation of remaining new footbridge stairs and fitout of stairs, including handrails and treads
- installation of drainage and stormwater pipes
- ongoing lift shaft installation works
- removal of the old timber footbridge.

## Construction impacts

During the station upgrade, changes due to construction activities may include:

- changed parking and traffic conditions for safety
- noise associated with heavy machinery
- temporary changes to access paths throughout the station precinct and surrounding areas
- increased vehicle movements near works
- the use of mobile lighting towers (for night works).

Normal working hours are 6.30am to 6.30pm, Monday to Saturday.

The local community will be given advance notice of construction activities likely to cause impacts, including after hours work (nights, Sundays and public holidays).

We thank you for your patience and cooperation as we build you a better Cannon Hill station.
