

# East Ipswich station accessibility upgrade

PROJECT UPDATE – MARCH 2021

The East Ipswich station accessibility upgrade is part of the State Government's ongoing investment of more than \$500 million to upgrade stations across the South East Queensland network, making them accessible for all customers.

## Project progress

The following works have been undertaken recently at East Ipswich:

- platform concrete works
- footbridge foundation works
- installation of in-ground services (water, sewerage and electrical)
- commenced precast lift shafts (pictured).

## Upcoming works

In the coming weeks customers and the community can expect to see the following activities:

- continuing stormwater and sewage works
- concrete pours – new platforms
- ongoing installation of services/conduits
- continuing precast lift shaft works
- stair footings
- works on existing platforms.

## Construction impacts

During works, construction activities may involve:

- changed parking and traffic conditions for safety
- noise associated with heavy machinery
- temporary changes to access paths throughout the station precinct and surrounding areas
- increased vehicle movements near works
- mobile lighting towers for night works.

Normal working hours are 6.30am to 6.30pm, Monday to Saturday.

The local community will be given advance notification of construction activities likely to cause impacts, including after hours work (nights, Sundays and public holidays, if required).

Thank you for your patience and cooperation as we build you a better East Ipswich station.
