

# Lindum station accessibility upgrade

Quarterly project update | April 2024

The Lindum station accessibility upgrade is part of the State Government's ongoing investment to upgrade stations to make them accessible for everyone.

## Project benefits

Lindum station is being upgraded to make it more accessible, and easier for customers and the community to travel on our network. The new, modern station will help people in wheelchairs, parents with prams and those travelling with luggage or who are injured use the station with ease.

## Construction progress

Since the closure of Lindum station on Monday 22 January 2024, major work has been progressing on site including:

- ✓ site establishment
- ✓ installation of safety fencing on platforms
- ✓ removal of existing footbridge
- ✓ piling works
- ✓ demolition of pedestrian ramps (between platforms and level crossing)
- ✓ underground service works
- ✓ commencement of platform structure demolition
- ✓ site preparation in the North Road park 'n' ride ahead of carpark expansion works
- ✓ decommissioning of station building.

North Road park 'n' ride site preparation works

## Upcoming works

You can expect to see the following upcoming activities on site:

- ongoing piling activities for the new footbridge and lifts
- excavation and construction of retaining walls
- platform raising works
- commencement of North Road park 'n' ride expansion works
- removal of station building
- installation of lift shafts.

Works will generally take place between 6am and 6pm Monday to Saturday, unless notified. Every effort will be made to carry out these works with respect for our neighbours and customers.

## Alternative transport

Shuttle buses continue to operate between Lindum and Wynnum North stations to keep customers moving during the station upgrade.

**We appreciate the community's understanding while we work to build you a better station.**
