

Coomera to Helensvale Duplication

Night and weekend works – noise notice

September 2017

In preparation for commissioning of the new duplicated rail line, night works will be undertaken in the rail corridor between Coomera and Helensvale stations **from Sunday 17 to Thursday 28 September**, weather and operational factors permitting.

The night work requires the use of heavy machines including trucks, cranes and scissor lifts to install electrification and power systems, and to undertake track construction work and the removal of temporary fencing from the rail corridor. This work must be completed at night for safety reasons and in order to maintain train services during the day.

In addition, **track resurfacing works** will be undertaken during project construction hours on selected days using loud, slow-moving resurfacing machines to ensure the track is aligned correctly with a solid foundation. For safety, the machines will frequently sound safety horns as they move along the track.

Scheduled night and weekend works

Location	Dates and hours of work	Type of work
Rail corridor between Coomera and Helensvale stations	6pm to 7am the next morning on Sunday 17 to Thursday 28 September	<ul style="list-style-type: none">• Use of construction machinery and vehicles using reversing beepers, flashing lights and safety horns• Installing power supply for signalling systems• Installing overhead electrification lines for the new track• Use of mobile lighting towers at night• Removal of temporary fencing• Contingency for track resurfacing works, if required.
	7am to 6pm on selected days between Sunday 17 and Friday 29 September	<ul style="list-style-type: none">• Use of loud, slow-moving track resurfacing machines, including on-track vehicles, loaders and trucks with reversing beepers and flashing lights• Use of safety horns.

Residents located near the rail corridor in these areas should expect increased noise and dust associated with these activities, as well as increased construction vehicle movements. Residents nearest the corridor may also be impacted by the use of lighting at nights. Queensland Rail apologises for any inconvenience caused and appreciates the local community's cooperation during these important works.
