

# Shorncliffe station renewal project and accessibility upgrade

PROJECT UPDATE – FEBRUARY 2026

The Shorncliffe station renewal project and accessibility upgrade is part of Queensland Rail's plan to improve and modernise the South East Queensland rail network.

## Project progress

Shorncliffe station temporarily closed to train services and customers on Saturday 29 November. All services on the Shorncliffe line are terminating at Sandgate station until the station reopens in mid-2026.

The focus on site has been the reconstruction of the amenities wing of the heritage station building, along with paint restoration works, and new roof and guttering for the heritage buildings and awnings. These works will continue throughout the project.

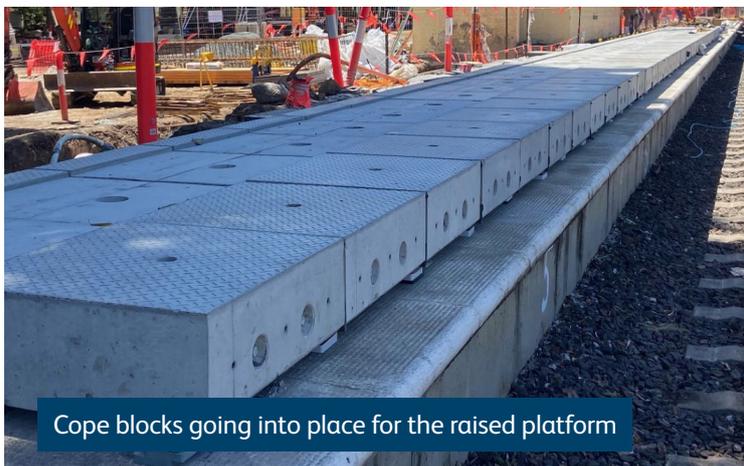

The installation of underground services, including electricity and water, are ongoing for the future modernised station office.

## Upcoming works

Over the coming weeks you can expect to see the following activities underway:

- construction of the new core zone shelter
- installation of new platform edge cope blocks, tiles and tactile ground surface indicators
- construction of steel framing for the raised platform area.

Works will generally take place between **6am and 6pm, Monday to Saturday**, unless otherwise advised.

Cope blocks going into place for the raised platform

## Alternative transport

Shuttle bus R346 continues to operate between Sandgate and Shorncliffe stations.

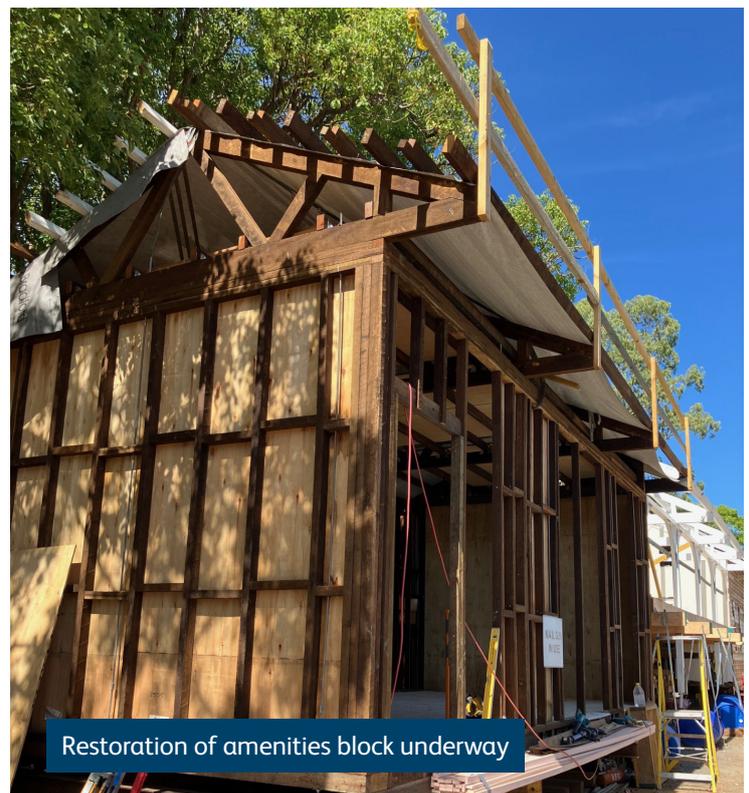

The shuttle service is accessible and runs every 15 minutes during peak, and connects with arriving trains at Sandgate station during off-peak.

The dedicated shuttle bus service for St. Patrick's College students has commenced and is offering three morning and six afternoon services between Sandgate station and St. Patrick's College.
