

# Toowoomba Range Clearance Upgrade

## Works notification – August 2018

Queensland Rail is continuing works for the Toowoomba Range Clearance Upgrade project. This project involves increasing the height of 11 heritage-listed tunnels between Toowoomba and Brisbane to ensure more exporters can use rail services. The project will help support the growth and prosperity of Queensland's agricultural sector.

For the safety of our workers and to minimise the impacts to freight and passenger services, the majority of works will be carried out during scheduled track closures.

In early August, the works will occur at two locations on the West Moreton line, between Holmes and Spring Bluff. Please see the map overleaf for more information.

Works will commence from 6pm on Friday 3 August and will be completed by 6pm on Tuesday 7 August. Works will occur on a 24-hour basis during this time.

### Overview of work

Location	Dates and hours of work	Type of work
Two locations between Holmes and Spring Bluff	<b>From 6pm Friday 3 until 6pm Tuesday 7 August</b> (continuous works)	Cutting and removing existing track and ballast, installation of drainage culverts, excavation of tunnel floor, drilling of rock bolts and supports and reinstatement of ballast and sleepers.  This will involve: <ul style="list-style-type: none"><li>• excavation of materials</li><li>• a generator</li><li>• lighting towers at tunnel entrances</li><li>• the delivery of materials and machinery</li><li>• machinery used will include a profiler, small excavator and drill rigs</li><li>• light vehicle movements, including reversing beepers and flashing safety lights.</li></ul>

**Vehicles and machines will access the rail alignment via Donnellys Road at Murphys Creek.**

Queensland Rail is aware noise and lighting from such operations can cause temporary inconvenience to our valued neighbours. Every effort will be made to carry out these works with minimal disruption.

We thank you for your patience as we work to improve our network.
