

Toowoomba Range Clearance Upgrade

Works notification – June 2018

Queensland Rail is continuing works for the Toowoomba Range Clearance Upgrade project. This project involves increasing the height of 11 heritage-listed tunnels between Toowoomba and Brisbane to ensure more exporters can use rail services. The project will help support the growth and prosperity of Queensland's agricultural sector.

To minimise the impacts to freight and passenger services and for the safety of our workers, the majority of works will be carried out during scheduled track closures.

In mid-June, the works will occur at two locations on the West Moreton rail line, between Holmes and Spring Bluff. Please see the map overleaf for more information.

The works are planned to commence at 8pm on Friday 15 June and will be completed by 6pm on Tuesday 19 June. Due to the extent of works required to complete the project and in order to minimise the interruption to rail services, it is necessary to conduct the works on a 24-hour basis.

Overview of work

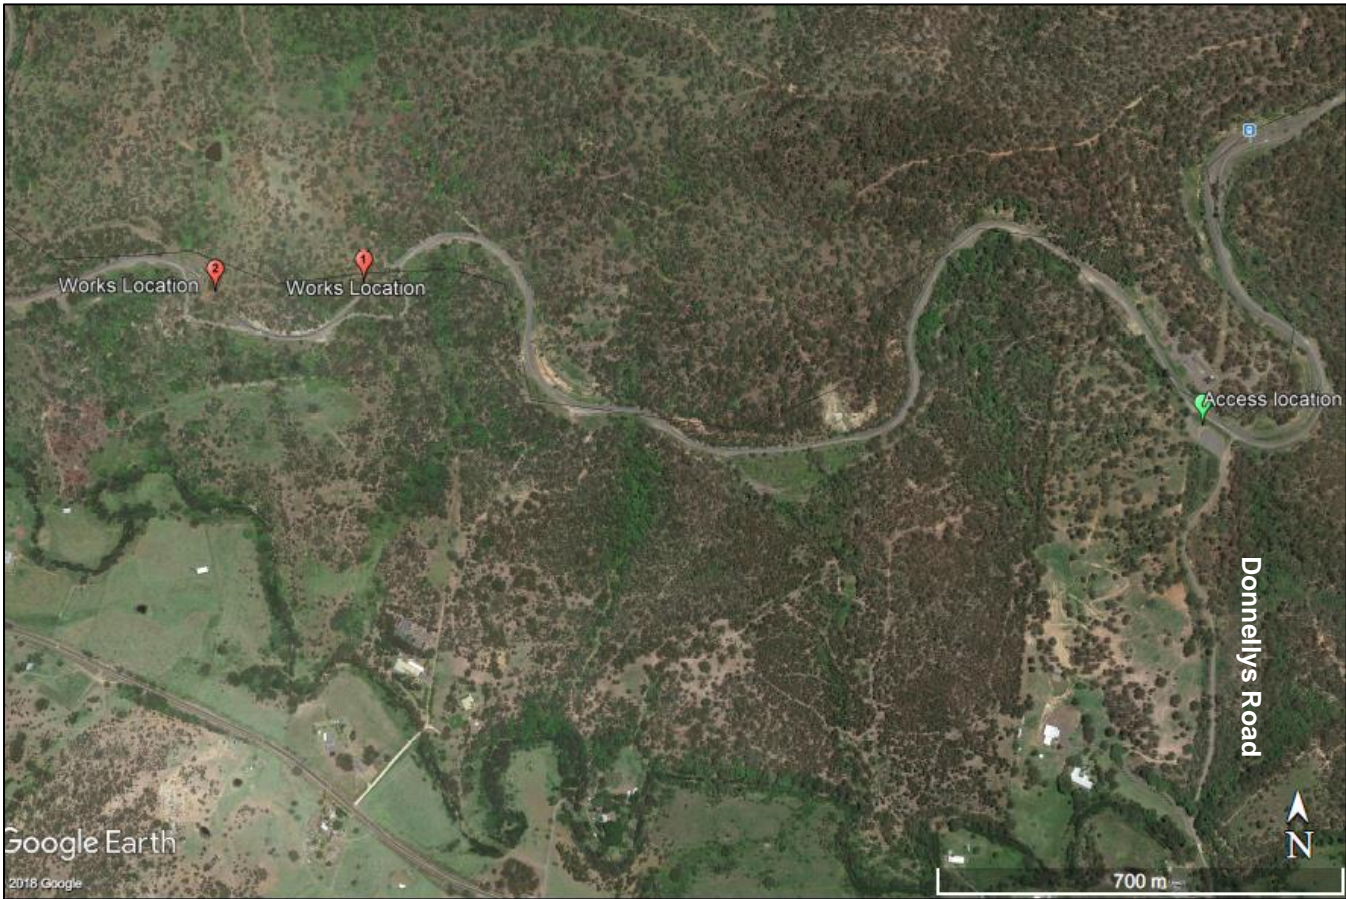

Location	Dates and hours of work	Type of work
Two locations between Holmes and Spring Bluff	From 8pm Friday 15 June until 6pm Tuesday 19 June (continuous works)	Site preparation, including mobilisation of plant and machinery, removal of existing ballast, installation of drainage and culverts and reinstatement of ballast and sleepers. This will involve: <ul style="list-style-type: none">• excavation of materials• a generator• lighting towers at tunnel entrances• the delivery of materials and machinery• light vehicle movements, including reversing beepers and flashing safety lights.

Vehicle and machines will access the rail alignment and work location via Donnellys Road at Murphys Creek.

Queensland Rail apologises for any inconvenience to our valued neighbours. Every effort will be made to carry out these works with minimal disruption.

For more information, please call **13 16 17** (during business hours) or email communityengagement@qr.com.au
