

29 October 2014

Dear Resident,

## **WOOMBYE STABLING FACILITY**

The South East Queensland Stabling Program involves the construction of purpose built, modern new train stabling facilities across the rail network to support a significant increase in passenger and train services.

One of five new stabling facilities now in the planning stage is at Woombye.

By providing stabling locations closer to the end of each line, the overall network will operate more efficiently, improving services and reducing costs.

Queensland Rail has been given responsibility for the construction and management of the additional stabling facilities. We want to ensure that the community in which we are constructing is provided with timely and relevant project information.

To support this we will hold an informal drop-in information session:

**Date:** Saturday 22 November 2014  
**Time:** 1.00pm - 3.00pm  
**Location:** CWA Park, Park Street, Woombye (opposite the Woombye Rail Station).

This will be an opportunity to meet the Queensland Rail Project Team, gain a better understanding of the Woombye stabling facility project as well as design and construction timelines and the commencement of operations, and to ask questions.

Queensland Rail has invited the Bendigo Community Bank to cook a sausage sizzle and arranged with Barung Landcare to provide appropriate tubestock so that you can take home a free native tree.

If you would like more information about this session or would like to receive the latest project fact sheet, please contact us by phone or email at **stabling@qr.com.au** or **1800 783 334 (free-call)**.

Please help us communicate with you by telling us how you would like to receive further information as we move forward by providing your contact details. This can be done by phone or email at [stabling@qr.com.au](mailto:stabling@qr.com.au) or 1800 783 334.

Kind regards

|  
Project Manager  
Queensland Rail
