

## Coomera to Helensvale Duplication Construction of site access track

Queensland Rail is duplicating the final section of single track on the Gold Coast line, between Coomera and Helensvale stations.

The Coomera to Helensvale Duplication involves duplicating 8.2 kilometres of track and eight rail bridges, installing overhead electrification and signalling systems, construction of a maintenance access road adjacent to the new rail line and replacing 3.8 kilometres of timber barrier fencing.

As part of preliminary works for the project, an access track will be constructed between Foxwell Road and Coomera River to facilitate construction access and to provide access for ongoing maintenance of the rail line following project completion.

### Overview of work

Location	Dates and hours of work	Type of work
In the rail corridor between Foxwell Road, Coomera and the northern side of Coomera River	Friday 4 March – early May 2016, weather permitting	<ul style="list-style-type: none"><li>• Clearing of vegetation</li><li>• Stripping topsoil</li><li>• Placing and compacting fill</li><li>• Installing the access track</li></ul>

Residents and businesses located near the rail corridor in this area may experience noise from construction vehicles, dust generated from earthworks and increased vehicle movements near the rail corridor access gates on Foxwell Road and Beattie Road.

Queensland Rail apologises for any inconvenience and thanks the local community for their cooperation during these important works.

Construction of four bridges between Foxwell Road and Coomera River is expected to commence in June 2016.
