

Coomera to Helensvale Duplication Construction of site access track

Queensland Rail is duplicating the final section of single track on the Gold Coast line, between Coomera and Helensvale stations.

The Coomera to Helensvale Duplication involves duplicating 8.2 kilometres of track and eight rail bridges, installing overhead electrification and signalling systems, construction of a maintenance access road adjacent to the new rail line and replacing 3.8 kilometres of timber barrier fencing.

As part of preliminary works for the project, an access track will be constructed between Coomera River and the rail bridge over Gold Coast Highway to facilitate construction access and to provide access for ongoing maintenance of the rail line following project completion.

Overview of work

Location	Dates and hours of work	Type of work
In the rail corridor between the Coomera River and the rail bridge over Gold Coast Highway	<ul style="list-style-type: none">Monday 18 April – late June 20166am to 6pm Monday to Saturday, weather permitting	<ul style="list-style-type: none">Clearing of vegetationStripping topsoilPlacing and compacting fillInstalling the access track

Residents and businesses located near the rail corridor in this area may experience noise from construction vehicles, dust generated from earthworks and increased vehicle movements near rail corridor access gates.

Queensland Rail apologises for any inconvenience and thanks the local community for their cooperation during these important works.

Construction of four bridges between Coomera River and Gold Coast Highway is expected to commence in June 2016.
