Oakey Creek bridge replacement

Queensland Rail is replacing the timber rail bridge over Oakey Creek, approximately 150 metres west of Oakey station. The bridge is nearing the end of its life and is a critical piece of infrastructure serving the region.

Upcoming activities for the project include after hours (weekend) works that need to be completed during planned track closures in August, weather permitting.

### Overview of work

<table>
<thead>
<tr>
<th>Location</th>
<th>Dates and hours of work</th>
<th>Type of work</th>
</tr>
</thead>
<tbody>
<tr>
<td>Oakey Creek bridge</td>
<td>• Sunday 16 August (7am - 5pm)</td>
<td>• Piling to install piers for the new bridge</td>
</tr>
<tr>
<td></td>
<td>• Sunday 30 August (7am - 5pm)</td>
<td>• General construction site activities, e.g. concreting, vehicle movements</td>
</tr>
</tbody>
</table>

This work involves the use of heavy, loud machinery associated with piling works to install the new bridge piers.

Nearby residents may experience some noise from these works and may notice increased truck movements and construction activity in the area.

Queensland Rail is aware that such operations may cause temporary inconvenience to our valued neighbours. Every effort will be made to carry out these works with minimal disruption.

We apologise for any inconvenience and thank the Oakey community for your cooperation during these important works.

Bridge replacement works are anticipated to be completed by late 2015, weather and construction conditions permitting.

All notices and project updates will be posted on Queensland Rail’s website at queenslandrail.com.au/oakeybridge.

For more information about this project please phone 13 16 17 (between 8am and 5pm, Monday to Friday) or email communityengagement@qr.com.au.
