

Dinmore station accessibility upgrade

Project update – July 2016

Preliminary footbridge and lift foundation works are well underway at Dinmore station as part of Queensland Rail's \$212 million station upgrade program.

Project progress

The following construction activities were recently completed:

- scaffolding installation
- construction of footbridge support column and preliminary lift shaft works including concrete pours
- construction of access road to platform 1
- foundation works for new light poles.

Upcoming work

In the coming weeks, customers and the community can expect to see the following construction activities:

- construction of temporary access ramps between the platforms and carparks
- relocation of go card touch on/touch off pedestals to align with temporary ramps
- excavation of footings for new stairs
- relocation of underground service pits.

Construction impacts

Customers and residents adjacent to Dinmore station may experience:

- noise associated with heavy machinery
- use of reversing beepers
- mobile lighting towers for night works
- changed traffic and parking conditions
- increased vehicle movements around the work zone.

Pedestrians are asked to follow all directional signage during this time.

Residents and other stakeholders will be given advance notification of construction activities likely to cause impacts, including after-hours work (nights and Sundays, if required).

Keeping you informed
