

QNRP V7 CONTRACT POs - UPDATE

QNRP V7 STATUS

After consultation earlier this year, we are ready to progress implementation of QNRP V7 on **28th June 2021**.

As it has been some time since you may have completed the QNRP PO Transition Course and to assist you with retention of knowledge of changes, you will be required to attend a QNRP V7 Refresher Workshop.

You will not be able to carry out Protection Officer duties until you complete a Transition Course or Refresher Workshop.

QNRP V7 REFRESHER WORKSHOPS

Refresher workshops will be scheduled for your area soon. POs will be required to attend a Refresher Workshop to remind them of the changes that will occur with QNRP implementation. These workshops run for approx. 3-4 hours.

QNRP V7 Refresher Workshops will be scheduled for June for Contract POs. These will be held at various locations across the state. Each PO Vendor Panel PO provider will be contacted next week to coordinate a delivery schedule.

WHAT DO I NEED TO BE AWARE OF?

QNRP V7 PO Refresher Workshops

Did you complete a QNRP PO Transition Course that was held last year?

These courses were held to inform you of changes to QNRP in 2020.

If you attended a Transition Course, you will now need to attend a **Refresher Workshop** prior to QNRP V7 implementation, scheduled to occur on 28th June 2021.

QNRP PO Transition Courses

If you did not attend a QNRP PO Transition Course last year, you will now need to complete a QNRP PO Transition course before QNRP V7 implementation.

How To Join a QNRP Transition Course?

To enrol for a QNRP PO Transition course, contact Rail Safety who will arrange for attendance at a QNRP Transition Course.

Rail Safety can be contacted by emailing: safeworking@QR.COM.AU or by calling 07 3072 1124.

IMPLEMENTATION DATE CONFIRMATION

QNRP V7 implementation will occur on Monday 28 June 2021.
